ceramitec 2024

Ausstellung – München, Deutschland

Bearbeitet von am 30. Nov. 2023

"Trade Fair for Technologies | Innovations | Materials"

Ceramitec is the international leading trade fair for the ceramics industry. It is the perfect place to gather information about innovative solutions and current trends. As an equipment exhibition, ceramitec is THE meeting point for leading manufacturers, users, and scientists. Everything revolves around the material of the future here.

Ceramitec covers the entire spectrum of the ceramics industry. A visit to ceramitec provides you with a detailed overview of the market and offers you orientation in times of economic challenges. The latest innovations and state-of-the-art machines from the ceramics industry and beyond are presented here. Thanks to the international orientation of the trade fair, you will find the right contacts for promising discussions and future business deals.
