IPB 2024

Ausstellung – Pudong Xinqu (Shanghai Shi), China

Bearbeitet von am 6. Dez. 2023

"International Powder & Bulk Solids Conference & Exhibition "

As China's leading "one-stop-shop" exhibition for powder and bulk solids, IPB focuses on the whole processing of particle, powder and bulk solids which are required for the production of chemical, pharmaceutical, food & feed, energy, ceramic & glass, pit & quarry, metallurgy, paper & trees, tobacco, and other relative industries.

With the strong supports by POWTECH family and with joint efforts of NürnbergMesse China Co., Ltd and Chinese Society of Particuology, IPB is eager to strive for progress, has already become a professional international trade fair in the whole fields of powder, granule and bulk solids technology in China. IPB provides you with the perfect opportunity to face first-hand information of advanced powder technologies.
