"The Meeting Place for the Process Industry of the Future"

At ProcessTeknik, in combination with Scanautomatic and Nordic Food Industry, you will have the opportunity to meet a unique range of suppliers, experts and industry colleagues. ProcessTeknik creates a common arena to increase Swedish companies' ability to find new solutions and increase their competitiveness.

ProcessTeknik is the meeting place for process industries and an arena where we highlight common challenges around energy, sustainability, production and the circular economy. You will find the latest technology, production equipment and solutions relevant to process industry as a whole, as well as your specific sector. Through new alliances, knowledge and innovation, you will get what you need to carry out your mission and for all of us to develop the industry together.
