

23. - 25. Sep. 2025

PARTEC 2025

Kongress – Nürnberg, Deutschland

Bearbeitet von am 14. Dez. 2023

"International Congress on Particle Technology"

PARTEC is one of the largest international conferences devoted to all aspects of particle and powder technology, including particle formation processes, particle characterisation and measurement methods and equipment, processes such as agglomeration, compaction and coating, formulation and performance of products, and applications of particles of any kind.

The next edition will be held from 23 - 25 September 2025 chaired by Prof. Dr.-Ing. habil. Lutz Mädler. Mädler is Director of the Leibniz Institute for Process Engineering in Bremen, Germany and will develop the concept for PARTEC 2025 in collaboration with the Executive Committee.

PARTEC 2025 will once again strive for a 360° view on particle technology. The congress aims at giving impetus particularly to the description and dynamic simulation of interconnected solids processes.
