The Powder Show

Konferenz & Ausstellung – Rosemont (IL), Vereinigte Staaten

Bearbeitet von am 14. Dez. 2023

"International Powder & Bulk Solids Conference & Exhibition"

The International Powder & Bulk Solids Conference & Exhibition, also known as "The Powder Show", is the only event in the western hemisphere bringing together the powder & bulk solids handling and dry processing sector — the community of OEMs, process engineers, and executives whose activity accounts for 70% of the manufacturing lifecycle of every product on earth.

For over forty years, The Powder Show has been the one-stop-shop for bulk material handling equipment, dry processing education, and resources exclusively for the powder manufacturing community

We invite you to join us in Rosemont, IL— just outside of Chicago, for North America's largest powder and bulk solid technology event to discuss ideas, products, and innovations with industry professionals and suppliers.

Meet product experts on the show floor who can help you strengthen your competitive edge and attend the two-day conference to receive expert-led technical training to advance your business and career. Whether you work in food, pharmaceutical, metals, or personal care—a wide variety of industries attend The Powder Show to discover the latest technologies, find new suppliers, and make professional connections with thousands of executives and engineers.
