How to Make a Payment

Bearbeitet von [mhd](#) am 14. Feb. 2024

Basic Company Profiles/eDirectory entries are always free of charge. However, these profiles will only show the company address and phone numbers. To extend your company profile, you will have to make a payment to you profile account.

While you can add/change any information or content in your company profile without being charged, these changes/additions will most of the time not be visible without a payment. You will find more information on available features and pricing, please see [here!](#)
