MoistTech Corp Announces Its Move within Sarasota, FL, USA

Bearbeitet von am 3. Nov. 2017 Sarasota (FL), Vereinigte Staaten –

MoistTech Corp.® has grown over the past years with the need to expand our corporate headquarters to a larger facility to continue to exceed our customer's needs. Still located in beautiful Sarasota, FL, our move into a new, larger office space accommodates our growing Sales Team, Marketing Efforts, Lab & Sample Testing Facilities and Calibration department with the needed space to expand our efforts.

The new 8,000 square foot facility will enable us to better serve the planning needs of our clients as we continue to grow our team. As of September 2017, **MoistTech Corp.** has doubled its space and revenue in the last 3 years in which is contributed to their steady approach to customer service excellence, lasting long-term relationships with our clients and investing in our team's success.

ABOUT MOISTTECH CORP<u>MoistTech Corp</u>. has quickly become the leader in Moisture Measurement as well as monitoring Fat/Oil and Coating Moisture / Thickness for the converting and film applications. Supported by the original manufacturers of Near-Infrared (NIR) technology in the industrial moisture industry, <u>MoistTech</u> manufactures a range of on-line sensors and at-line instruments for moisture measurement and real-time moisture process control for numerous applications. Insensitive to material variations such as particle size, material height and color, our moisture sensors provide continuous, reliable readings with zero maintenance and a one-time calibration with a non-drift optical design allowing operational personnel to confidently make immediate process adjustments based on real-time measurements.
