Pelletron Pellbow | In Motion - gentle conveying of dry bulk materials

Edited by on 27. Oct. 2023

The Pellbow® is a special pipe bend that reduces fines, eliminates the formation of streamers and is wear resistant. Available in sizes 1.5" to 12" (40mm to 300mm), in stainless steel, aluminum and cast iron. Fits pipe connection stub ends, loose or welded flanges and cast flange versions.
