Mining & Minerals Expo

Trade Fair – Kyiv (Kyiv city), Ukraine

Edited by on 12. Dec. 2023

"Int. Trade Fair for Mining and Coal Industry"

We invite you to participate in the VIII International Trade Fair "Mining & Minerals Expo - 2024" which is the most effective business platform for promoting mining technologies and equipment, stimulating your sales growth and increasing your share at one of the Europe's largest mining markets.

Ukraine has huge deposits of various mineral resources, by volumes of many of which our country occupies leading positions in Europe and in the world.

According to the State Service for Geology and Mineral Resources of Ukraine, there are above two thousand of mining and processing companies engaged in the mining industry of Ukraine.

At the same time, a large portion of industrially proven deposits remains undeveloped, for some resources it makes 60%, which forms a significant potential for further development of the mining industry and economic development of Ukraine in general. VIII International Trade Fair Mining & Minerals Expo is called to facilitate realization of this potential.

In modern conditions of rapid innovative technological development and tougher requirements of world standards for industrial and environmental safety, Mining &

Minerals Expo is to become an effective marketing tool for technical and technological renewal and intensification of the Ukrainian mining industry, mining production volume growth and quality improvement.

Another important task of the Mining & Minerals Expo is development and realization of export potential of Ukrainian manufacturers at the mining equipment and technologies market by engaging foreign trade delegations to visiting the trade fair with assistance of relevant government authorities.
