Fagus-GreCon acquires shares of Döscher Microwave Systems

Edited by on 6. Nov. 2017

Tigard (OR), United States –

The measuring systems of **Döscher** already used in many applications of the food, pharmaceutical and luxury food industry optimally complement the **Fagus-GreCon's** range of measuring solutions. **Dr. Jörg Hasener**, head of the innovation management at **Fagus-GreCon**, also acquires 24.5% of the company shares of **Döscher Microwave Systems**. The presently sole managing director of **Döscher Microwave Systems**, **Claas Döscher**, will withdraw from the management by end of the year. His brother, **Jörn Döscher**, presently responsible for sales, takes on the majority of the company shares and the sole management on January 1, 2018. **Fagus-GreCon Greten GmbH & Co. KG** is a privately held company located in Alfeld/Hanover, Germany. The **GreCon** business unit is the market leader in the development and manufacturing of fire protection systems and measuring equipment for many types of industries - including the wood-based panels industry. The **Fagus** business unit belongs to the leading suppliers of the footwear industry because of the worldwide unique combination of design, lasts and moulds. All business units operate worldwide and offer customer support on the job-site. The company counts more than 600 employees. **Döscher Microwave Systems GmbH** is a global player in the field of industrial moisture measurement. The measurement systems provide for quick and precise data in the food and luxury food sector as well as in the wood and pharmaceutical industry. The company has developed tailored solutions for a

multitude of different measuring positions that many customers appreciate. The company founded in 1994 and based in Hamburg presently has 10 employees.
