ACHEMA 2024

Congress & Trade Fair – Frankfurt am Main, Germany

Edited by on 5. Jul. 2023

"World Forum for the Process Industries"

With manufacturers and service providers from over 50 countries presenting their products for chemical, pharmaceutical and biotech research and manufacturing as well as energy and environmental services ACHEMA is the driving force and groundbreaker for the international process industries and their suppliers.

ACHEMA is the world forum for chemical engineering, process engineering and biotechnology. The world's leading show for the process industries takes place every three years in Frankfurt. The spectrum ranges from laboratory equipment, pumps and analytical devices to packaging machinery, boilers and stirrers to safety technology, materials and software, thus covering all the needs of the chemical, pharmaceutical and food production industries. The accompanying congress, featuring scientific lectures and numerous guest and partner events, complements the wide range of exhibition themes.
