(Extract from over 180 major projects)

**to benefit of**

**global organization – local contact and service partners**

- ❖ 2,000 employees, 40% engineers, over 180 service engineers
- ❖ more than 125 years experience in weighing technology

**time saving, professional partnership**

- ❖ customized package units including weighing, feeding and control equipment delivered by a single source – Network of 27 Locations with multiple offices and over 130 territorial agencies worldwide

**low investment costs – high efficiency**

- ❖ unique, state of the art coriolis mass flow meter MULTICOR®

**maximum reliability**

- ❖ experience from more than 3,200 installed MULTICOR® since 1986
- ❖ over 12,000 test records of bulk solids materials
