Filter		■
Bucket elevator		■
Engineering, Documentation, Supervision		

Project: **Welsch, Various Minerals Mill, Ø= 2,0 m, l= 5 m
250 kW, Gear-Pinion Drive**

Location: **Welsch, Germany**

Status: **Assembled 2006**

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill gear box		■
Main mill motor		■
Engineering, Documentation, Supervision and Commissioning		

Project: Gateway Cement, Cement Mill, Ø= 2,6 m, l= 13,0 m
25 tph, 800 kW, Central Drive

Location: Nigeria

Status: Delivered 2006

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill gear box		■
Main mill motor		■
Separator		■
Filter		■
Packed elevator		■
Engineering, Documentation, Supervision and Commissioning		

Project: Girk Kalun, Coal Mill (vertical)
200 tph, 755 kW

Location: Croatia

Status: Delivered 2007

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill		■
Mill gear box		■
Main mill motor		■
Engineering, Documentation, Supervision		

Project: Lafarge Malogoszcz, Cement Mill, Ø= 4,4 m, l= 14,0 m
4.000 kW, Gear-Pinion Drive

Location: Malogoszcz, Poland

Status: Delivered 2007

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill main gear	■	
Double pinion drive	■	
Mill gear boxes	■	
Main mill motors	■	
Engineering, Documentation		

Project: Sharjah, Raw Mill, $\varnothing = 4,6 \text{ m}$, $l = 10,5 \text{ m} + \text{drying chamber}$
180 tph, 3.500 kW, Central Drive
Location: Sharjah, United Arabic Emirates
Status: FAC signed 2008

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube	■	
Mill gear box	■	
Main mill motor	■	
Separator	■	
Filter	■	
Bucket elevator	■	
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning		

Project: Kuwait, Cement Mill, $\varnothing = 4,2 \text{ m}$, $l = 13 \text{ m}$
81 tph, 2 x 1750 kW, Double Gear-Pinion Drive
Location: Kuwait
Status: FAC signed 2006

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube	■	
Mill gear box	■	
Mill main gear		■
Main mill motor	■	
Separator		■
Filter		■
Bucket elevator		■
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning		

Project: Al Bana 1, Cement Mill, $\varnothing = 4,2$ m, l= 13,0 m
85 tph, 3.150 kW, Central Drive
Location: Al Bana, United Arabic Emirates
Status: FAC scheduled for 2008

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube	■	
Mill gear box	■	
Main mill motor	■	
Separator	■	
Filter		■
Bucket elevator	■	
Packing plant		■
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning; <i>additional delivery of two concrete silos</i>		

Project: Al Wataniya, Cement Mill, $\varnothing = 3,8$ m, l= 14,5 m
75 tph, 2.800 kW, Central Drive
Location: Al Wataniya, United Arabic Emirates
Status: FAC scheduled for 2009

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill gear box	■	
Main mill motor	■	
Separator	■	
Filter		■
Bucked elevator	■	
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning; <i>additional delivery of four steel silos</i>		

Project: Abu Dhabi 1, Cement Mill, $\varnothing = 2,8$ m, $l = 8,0$ m
25 tph, 800 kW, Gear-Pinion Drive
Location: Abu Dhabi, United Arab Emirates
Status: Assembly in progress

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill gear box		■
Main mill motor		■
Separator		■
Filter		■
Bucket elevator		■
Packing plant		■
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning		

Project: Abu Dhabi 2, Cement Mill, $\varnothing = 2,4$ m, $l = 13,0$ m
25 tph, 950 kW, Central Drive
Location: Abu Dhabi, United Arab Emirates
Status: Assembly in progress

Scope of supply:

	<i>new</i>	<i>refurbished</i>
Mill tube		■
Mill gear box		■
Main mill motor		■
Separator		■
Filter		■
Bucket elevator		■
Packing plant		■
Electrical Equipment	■	
Engineering, Documentation, Supervision and Commissioning		

Project: Al Bana 2, Raw Mill, Ø= 3,8 m, l= 12,5 m
180 tph, 2 x 1.500 kW, Gear-Pinion Drive

Location: Al Bana, United Arab Emirates

Status: Assembly in progress (06/2008)

Scope of supply:

	new	refurbished
Mill tube		■
Mill gear box		■
Main mill motor	■	
Separator		■
Filter	■	
Bucket elevator		■
Electrical Equipment	■	
Engineering, Documentation, Supervision and commissioning; <i>incl. two impact hammer mills for pre-grinding</i>

Intercem Engineering is a leading company for the supply of used and new equipment for the cement industry. Turn key plants are either designed as combination of used and -as far as necessary- new equipment. A high-class team of engineers provides comprehensive engineering for technology and design also for complete new production lines.

Fast ■ Fair ■ Flexible ■

Customized solutions | Used and refurbished as well as new equipment and machines for the cement industry.
Detailed equipment catalogue available on our website www.intercem.de

- General plant layout and construction design
- Project management and supervision
- General and detailed engineering
- Complete drawings and documentation
- Process calculations and flow sheets
- Supply of equipment
- Erection management and commissioning
- Training and service
- Case studies and experts reports
- After sales service
